RDT Jetro Signs Reseller Agreement with Arbyte, a Leading Russian IT Solutions Supplier

ARBYTE

24, 09, 2009 - RDT Jetro, a leading vendor of server-based application delivery and virtualization software solutions today announced that it is expanding its footprint in Russia by signing a reseller agreement with ARBYTE, an IT Solutions, Products and Services developer and supplier. The agreement will support Jetro's further penetration of the Russian market following the establishment of a local office in May of 2009.

"We are thrilled to partner with RDT Jetro," said Natalia Kalimanova, ARBYTE Software Solutions Division Director. "Russia is an important market and one that remained strong, maintaining its positive growth rate. We are confident that by joining our excellent connections to the market with Jetro's technological leadership, we will be able to reach more customers and win more business."

Established in Russia in 1991, ARBYTE focuses on production and distribution of top quality computer equipment and solutions for the corporate market. ARBYTE will now resell Jetro's COCKPIT®, a highly cost efficient Server Based Computing (SBC) solution, and the COCKPIT2i, a secure web browser that offers 100% secure access to the internet.

"This agreement underlines RDT Jetro's continuous efforts to build a strong local presence in Russia," said Hugo Georlette of BeLocal, Jetro's representative in Russia. "Russia's IT market is evolving quickly and Jetro's solutions, with their advanced technology and favorable cost position, are ideally suited to meet the needs of both private sector as well as government sector players."

"Teaming with an established local player such as ARBYTE we can significantly expand our activity in Russia," said Giora Shaked, CEO of Jetro. "Our solutions allow corporations of all sizes to trim down their IT costs without compromising performance and functionality. In particular our new Jetro COCKPIT 4.1, with its
